Aloha,

As part of the application process, a simple sketch is required and needs to be uploaded to your CIT Application for residential requests. The sketch should illustrate the basic requirements of your project.

Simple Sketch Requirements:

The sketch may be hand drawn on 8.5" x 11" paper. The sketch does not require an Engineer's stamp. It should be a simple, clear, and legible sketch that includes:

- 1) General outline of the lot and house (including driveway)
- 2) Location of existing or proposed meter equipment or weatherhead (mark an 'X' over any equipment/cable to be removed)
- 3) Location of serving pole or handhole and general route/location of overhead or underground cable from pole or handhole to meter/service equipment.

Example:
